

Lancer Comic Strip Assignment

Use the template available on the M:\ drive to start creating your own comic strip. Using the example of comics and the project example you are to do the following:

Create a four block comic strip using ONLY Shapes.

Shapes can be customized using blending options

You may use the text tool to add text. (Keep it brief as it has to be readable)

You can use the face of any teacher to add to your comic strip. You must however use the paste into command to only replace the shapes face.

Comic strip topics MUST be appropriate and not demeaning towards anyone or the school.

You must follow the grading rubric and ensure you follow all requirements.
